Welcome Back

This information was compiled on March 30, 2022 and is subject to change. We plan to update this information at least once within a week of the conference scheduled date.

The safety of our attendees and protecting the health of our nursing community are top priority. We are closely monitoring the evolution of COVID-19 mandates.

Currently, CDC mask recommendations are dependent on a county's COVID-19 community level. At low level, individuals are recommended to wear a mask based on personal preference. At Medium level, individuals are recommended to wear a mask if they are at high risk of serious illness, are immunocompromised, or live with someone with those conditions. At High level, individuals are recommended to wear a mask indoors regardless of vaccination status. We will continue to monitor the community level in Collier County.

As of March 30, 2022, Collier County level is **Low**.

As of February 2022, Florida DOH recommendations do not require facial covering. We will continue monitor Florida DOH recommendations.

Masks will be provided on site for those who chose to mask at any time.

For the health and safety of all participants, we ask that you reconsider participating in events should you feel sick or are experiencing COVID-like symptoms prior to travelling to or onsite in Naples.
